PORT & PARK FEES include anchoring & mooring levies as well as dive passes, visitor permits and entrance fees to regional conservation parks and zones. These charges are imposed on visiting liveaboards and on their passengers at the discretion of local harbour & port masters, shahbandars, village authorities & regional government officials. Often these levies change unannounced and arbitrarily, and they can wildly vary from port to port, from season to season and from area to area.

As we travel into ever more remote areas of Indonesia, the fuel bunkering costs rise respectively in line with the increasing mileage. The **FUEL ADDER** covers the expenses for the additional amounts of Marine Fuel that are required to execute itineraries that contain these larger distances.

Since prices for all of these expenses can fluctuate substantially and unexpectedly, the surcharges listed above can be increased or decreased at any time, with immediate effect and without prior notice.

The surcharges above have to be paid in full on the last day of the cruise with the Captain or the Cruise Director, either cash or by credit card.
